

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (currently amended) A method comprising
providing, to a user of a control device, an indication of a value representative of a current preset associated with a sound signal source, the current preset having been pre-selected by the user as being of interest,
simultaneously providing an indication of a value of a possible new preset associated with the sound signal source and
providing the user an edit option allowing the user to change the current value to the new value.
2. (previously presented) The method of claim 1 in which the preset is associated with a sound signal source in a multi-media system.
3. (previously presented) The method of claim 2 in which the multi-media system comprises an audio system.
- 4.-5. (canceled)
6. (original) The method of claim 1 also including enabling a user to confirm the possible new preset value.
7. (previously presented) The method of claim 5 in which the control device communicates with a second device to effect the confirmed new preset value.
8. (original) The method of claim 1 in which the value comprises an identifier of a station.
9. (previously presented) A method comprising
enabling a user of a control device
to indicate a value of a possible new preset of a sound signal source and

to separately confirm the indication, and,
while the new value has been indicated but before the indication has been
confirmed, to change an operation of another device in accordance with the
indicated possible new value.

10. (original) The method of claim 9 in which the value comprises an identifier of a station.
11. (previously presented) The method of claim 10 in which the station comprises a radio station and the another device comprises a radio receiver.
12. (previously presented) The method of claim 9 in which the sound signal source comprises a source of items to be performed, the source being configured to store the items for performance in response to the preset.
